ANNUAL REPORT FOR 1957

To: the Chairman and Members of Flaxton Rural District Council.

Mr. Chairman, Ladies and Gentlemen,

I have pleasure in submitting the Annual Report for 1957 on the Health and Sanitary circumstances of the District.

In general our statistics compare fairly closely with those for England and Wales and call for little comment.

The complete absence of any case of Diphtheria and for the second year in succession of Poliomyelitis are pleasing features as is the comparative low incidence of whooping cough. A high proportion of your population is now immunised against these conditions. Measles incidence is heavy and the table shows the incidence of infectious diseases for several years shows how marked is the incidence of measles during alternate years. Some dysentery notifications amount to thirteen, but from the investigation of these cases it is apparent that only a small proportion of cases are notified. The incidence in the whole country rises each year, and the increase is a real one. The lesson to be learned from this is that our standard of personal hygiene, both in the home and outside, provide scope for considerable improvement.

Although our own figures of death from cancer of the lung are inadequate to confirm an increase, there is no doubt that the figures for the whole country are increasing year by year, and that the connection between cancer of the lung and tobacco consumption, particularly cigarette smoking is proven. The Minister of Health has accepted the need for warning the population and for education in the need to avoid tobacco addiction, particularly in the young. Local Authorities are asked to undertake health education in this field, yet at the same time one sees on every hand affecting advertisements advocating smoking, television programmes are interrupted to sponsor various brands of cigarettes, and it is difficult to forget the enormous revenue demand from the taxation of tobacco.

I am,

Mr. Chairman, Ladies & Gentlemen,

Your obedient servant,

H. GRAY, M.D., Ch.B., D.P.H.

Medical Officer of Health.

VITAL STATISTICS

Population of the Rural District - 23,030.

GENERAL PROVISIONS OF HEALTH SERVICES FOR THE AREA

Many of the Health Services carried out by the County Council as Local Health Authority are administered by the Area Health Sub-Committee which meets monthly at Easingwold. The Flaxton R.D.C. is represented on this body.

PUBLIC HEALTH OFFICERS

Details of Officers are listed at the beginning of the Report.

LABORATORY FACILITIES

Bacteriological and chemical examinations of milk, water and effluents are carried out for the Council by the County Public Health Laboratory, Messrs. T. Fairley & Partners of Leeds, and the Laboratory of the Rivers Board at Wakefield.

AMBULANCE

The Ambulance Station serving the area is situate at Haxby. Telephone number - day or night YORK 68181.

DISTRICT NURSES

A District Nursing Service covers the area and the Nurses and the districts they cover are as follows:-

Clifton Without and Rawcliffe.

Nurse Southam, 26 Melton Avenue, Clifton, York.

Telephone: York 54714.

Haxby, Wigginton & Skelton.

Nurse Hurdus, School House, Haxby, York.

Telephone: York 68519

Huntington, Earswick & New Earswick.

Nurse Atkinson, 1 Rowan Place, New Earswick, York.
and

Telephone: York 68280

Nurse Vale, 132 North Moor, Huntington, York.

Telephone: York 68194

Buttercrambe, Bossall, Claxton, Harton, Heworth, Holtby, Gate Helmsley,
Upper Holmsley, Osbaldwick, Sand Hutton, Stockton on Forest and Warthill

Nurse Emmerson, 4 Vyner Street, Haxby Road, York.

Telephone: York 22068

Flaxton, Strensall, Towthorpe & Lilling.

Nurse Henderson, Armordale, Station Road, Flaxton.

Telephone: Flaxton
Moor 265.

DOMESTIC HELP SERVICE

A comprehensive Domestic Help Service is in operation throughout the area, and arrangements for assistance can be made through the County Area Health Office, Manor Road, Easingwold. Telephone: 324.

Applicants for Domestic Help are informed that a standard hourly charge is in force, but they are all offered the opportunity of being assessed according to financial circumstances. The charges paid vary from the maximum of 3/- per hour down to the minimum charge of 3/- per week. Assistance can be provided for up to 44 hours in any week, but the number of hours granted is dependent on the circumstances of each individual case. Priority is given to the provision of help in cases of domiciliary confinement, and cases of this nature normally continue for two weeks. In the Flaxton area there is considerable demand for assistance to cases of aged and chronic sick persons and these cases are usually of long duration.

INFANT WELFARE CENTRES

The whole area is served by either static clinics in the major parishes or by attendance of the Mobile Clinic.

The County Council continues to be responsible for the distribution of Welfare Foods and much of the structure of the Ministry of Food is abolished. By utilising voluntary helpers at these clinics and by the very welcome co-operation of several tradesmen in the area, the efficient supply of these foods has been maintained at very little cost to the ratepayer.

MATERNITY HOSPITALS

Admissions are arranged by a person's own doctor. Booking clinics are held each Friday, 9 a.m. to 11 a.m. at the Health Services Centre, Duncombe Place, York.

Admission on social grounds, e.g. unsatisfactory housing conditions, is made following an enquiry and report by me.

TUBERCULOSIS CLINIC

Clinics held at 11 Castlegate, York, every Thursday except the fifth Thursday in each month at 9.30 a.m.

DIPHTHERIA AND SMALL-POX IMMUNISATION

Free immunisation is available. Your own Doctor will carry out the immunisation free of cost, or if preferred children under 5 years of age can receive injections at Infant Welfare Centres on request.

INFANT WELFARE CENTRES.

<u>Place</u>	<u>Time</u>	<u>District Served</u>
Village Hall, Haxby. Folk Hall, New Earswick.	Alternate Tuesdays, 2 p.m. Alternate Wednesdays, 2 p.m.	Haxby and Wigginton. New Earswick, Huntington and Earswick.
Parish Hall, Strensall.	First Thursday in each month at 2.30 p.m.	Strensall.
(M) Strensall Camp	Every four weeks on Tuesday at 10 a.m.	Strensall Camp Civilian Personnel.
Social Hall, Bell Farm Avenue, Huntington Road. (M) Memorial Hall, Huntington (M) Village Hall, Stockton on Forest. (M) Village Hall, Sand Hutton. (M) The Vicarage, Skelton. (M) Church Hall, Osbaldwick.	Each Wednesday 1.30 p.m. Alternate Wednesdays 2 p.m. Four weekly. Friday, 2 p.m. Four weekly. Friday, 2 p.m. Four weekly. ANNUAL REPORT FOR 1957.

To the Chairman and Members of the Flaxton Rural District Council

Mr. Chairman, Ladies and Gentlemen,

I have the honour to submit to you once again an Annual Report upon the work carried out during the year 1957. I would apologise at the outset for the delay in making this available.

The amount of work which has had to be dealt with during the year has been abnormally heavy. The release of building licensing has again plunged the authority into all the work problems and implications of a very heavy speculative building programme.

Staffing has, if it is possible, been even more difficult during the year than usual. The two technical assistants changed during the year, and three out of five clerical staff were new. The conditions have been such as to cause a great deal of anxiety in connection with the general administration of the department.

I would like to express my appreciation to the Chairman and Members of the Council for the sympathetic consideration which they have at all times given to me in the many difficulties and problems which are met with so frequently in the day to day working of this department. I would also like to express my appreciation to Mr. Medd, the Chief Clerk in my office, and to Miss Frankett, whose knowledge of the work in the department has been of such great value in the midst of the extraordinary staff changes which have had to be coped with during this period.

I am, Mr. Chairman, Ladies and Gentlemen,

Your obedient Servant,

L.B. PARKER

Surveyor and Chief Public Health Inspector.

WATER SUPPLIES

There have been no extensive changes in the arrangements for the supply of water to the population of the district during the year.

There has been some slight improvement in the supply of water as provided to the Council in bulk from the York Waterworks Company upon completion of the Seward's How Tower and there has been appreciable improvement in the water supply at peak periods in the parish of Strensall by the completion of the laying of an interlinking main between the Lords Moor Lane and Moor Lane mains at Strensall.

The area is fully served with water mains and the number of properties not taking advantage of the mains available are very few indeed. All inhabited properties in the area have a water main in the highway at the point nearest to them.

There have been no cases of pollution of water in the mains and a tabular statement of samples taken is set out with a typical detailed bacteriological report.

The greatest foreseeable future water problem will be the question of existing mains and services being found to be in need of greatly increased capacities due to the somewhat rapid growth of the population of the area coupled with a certain amount of industrial demand which will add considerably to the strain on the existing services.

The White Paper published during the year on the regionalisation of water schemes is one which will present local authorities with a need for some rather heart searching enquiry and consideration, bearing in mind that its general aim in effect will be to take from local authorities control of their water services. As I have advised the Committee and the Council, the essential need is the fullest and frankest discussions with their neighbours upon the best approach to this rather important subject and that such discussions should proceed with urgency in order that the Ministry may be presented with the local authorities carefully considered views upon it.

Our present arrangement of combined authorities providing water in bulk with distribution remaining in the hands of the individual authorities is one which appears to be economically sound and one which if properly developed and directed would seem to have much to commend it although it does not fall into line with the objectives of the new Paper.

SEWERAGE AND SEWAGE DISPOSAL

The existing systems of sewerage in the Council's area, together with the operation of the many pumping stations and the maintenance of the sewage disposal plants does not particularly merit comment, despite the magnitude of the problem of dealing with sewage from an area of this size and type, but brief comment should be made upon the three items of new schemes, extended schemes and improved schemes.

A scheme of sewerage for the village of Sand Hutton was commenced during the year.

Schemes of extension of sewage disposal plants have been prepared and have received careful consideration of the Council in respect of the Osbaldwick works, the Skelton and Rawcliffe works and the Haxby works. The Ministry have held Inquiries into the Council's proposals in respect of the two former.

There has been a comparatively small but nevertheless very important improvement in existing sewage disposal arrangements at the Hilbra estate, Haxby. A building development of some 70 or more houses which has for many years discharged into what was originally a private sewage disposal treatment plant later taken over and maintained by the local authority was dispensed with and a new pumping station provided by the Council for the pumping of sewage from this group of properties into the general sewerage system of the Haxby, Huntington, Earswick and Wigginton group.

Plans of a very considerable area of new development have been approved in the Parish of Heworth Without, sewage from which is to be discharged some four or five miles distant into the scheme of the Stockton on Forest village. This will necessitate a considerable increase in the size of the sewage treatment plant at Stockton on Forest as the building development proceeds. It follows the pattern of many of the sewerage services in the area which are tending continuously to become overloaded by the rapid increase in the population of the area.

During the year the Council were involved in litigation when a firm of building contractors took legal proceedings against the Council for refusal to approve plans of new development which had been refused on the grounds of inadequacy of the arrangements for surface water sewerage. There appeared to me at the time to be some rather serious principles involved in this case and it was pleasing to know that the Council's action in disapproving the plans was upheld by the Courts.

SCHEDULE OF SEWERAGE AND SEWAGE DISPOSAL SCHEMES IN THE AREA

REFUSE COLLECTION AND PUBLIC CLEANSING.

There has been no untoward difficulty in the carrying out of the direct labour scheme of refuse collection and disposal in all Parishes in the Council's area during the year. The only problem met with in connection with the service of particular interest is the one which affects all services in the Council's area and that is the tendency to overloading of the service due to the rapid increase in the population of the district.

I think it would be no modest achievement if checked by available statistics to have been able to continue this collection service with two refuse vehicles only during the year, catering as they do for approximately 6,400 houses, the collection being a weekly collection of both refuse and salvage.

The maintaining of the service with the aid of two vehicles has only been possible by the bringing into operation during the year under review of a large capacity fore and aft tipping vehicle which was first brought into operation in January.

The re-arrangement of the service carried out in the late part of 1956 and the early part of 1957 was again reaching the maximum capacity of the service by the end of the year.

There have been no complaints with regard to the refuse collection service during the year apart from the complaints which are from time to time received as to the collection being from the gate of the properties. The collection of refuse from the door of older residents is one which is appreciated.

During the year the levelling of tips had to be changed over from hand levelling to levelling by mechanical means, but whilst this has enabled the tipped refuse to be levelled down it has not been without its difficulties.

HOUSING.

During the year the new Housing Act, 1957 and the Rent Act, 1957, were brought into operation. There was no particular rush for Certificates of Disrepair so far as this area was concerned by the 31st December 1957.

It was felt in this particular area that the new Act in fact reduced the standard of housing which had up to its passing been considered to be enforceable in this district. The clause under the old Housing Act which required a local authority to take into consideration the general standard of housing in the area had resulted in a much higher standard being adopted previously than was found to be possible under the new legislation and in fact the amended standard reduced the number of properties considered to be in the category "not repairable at reasonable cost" from 276 to 118.

Eight houses were demolished during the year as being unfit for human habitation whilst nine unfit houses were the subject of Undertakings by owners to bring up to the housing standard requirements, and a further three in the same category were the subject of Undertakings not to be used for human habitation.

The Council were successful in adopting throughout the area, through the North Riding County Council, the New Streets Act of 1951. In keeping with many other authorities who have adopted this Act, it has been found to be a particularly complicated and rather difficult Act to operate but its general objectives are sound and very necessary to have in an area such as this where private development is so extensive.

1. Inspection of Dwellinghouses during the year:

(1) (a) Total number of houses inspected for defects under the Public Health & Housing Acts	540
(b) Number of inspections made for the purpose	600
(2) (a) Number of dwellinghouses included in (1) above which were inspected and recorded under the Housing (Consolidated) Regulation, 1925 to 1932.	86
(b) Number of inspections made for the purpose	158
(3) Number of dwellinghouses found to be in a state so dangerous to health as to be unfit for human habitation	86
(4) Number of dwellinghouses (exclusive of those referred to in (3) above found not to be in all respects reasonably fit for human habitation	154

2. Remedy of defects with service of formal notices:

Number of dwellinghouses rendered fit in consequence of informal action by the Local Authority or by their officers	43
---	----

3. Action under Statutory Powers:

(a) Proceedings under Sections 9, 10 and 12 of the Housing Acts 1936 and 1957:

(i) Number of dwellinghouses in respect of which notices were served requiring repairs	NIL
(ii) Number of houses rendered fit after service of formal notices:	

(a) By owners	NIL
---------------------	-----

(b) Proceedings under the Public Health Act, 1936:

(i) Number of dwellinghouses in respect of which notices were served requiring repairs	5
--	---

(ii) Number of dwellinghouses rendered fit after service of formal Notices:

(a) By owners	5
(b) By Local Authority in default of owners	NIL

(c) Proceedings under Sections 16, 17, 19, 21 and 23 of the Housing Act, 1957:

(i) Number of dwellinghouses in respect of which Demolition Orders were made	6
--	---

(ii) Number of dwellinghouses demolished	8
--	---

(iii) Number of separate tenements or underground rooms in respect of which Closing Orders were made	NIL
--	-----

(iv) Number of underground rooms or tenements in respect of which Closing Orders were determined, the rooms having been rendered fit	NIL
--	-----

(v) Number of dwellinghouses in respect of which undertakings were given by owners to bring the properties to a standard in compliance with the Housing Act.....	9
--	---

(vi) Number of dwellinghouses in respect of which undertakings were given by owners not to use premises for human habitation	3
---	---

4. Housing Act, 1936 - Part IV - Overcrowding:

(a) (i)	Number of dwellinghouses overcrowded at the end of the year)	No
(ii)	Number of families dwelling therein)	Record
(iii)	Number of persons dwelling therein)	
(b)	Number of new cases of overcrowding reported during the year		NIL
(c) (i)	Number of cases of overcrowding relieved during the year		13
(ii)	Number of persons concerned in such cases		40
(d)	Particulars of any cases in which dwellinghouses have again become overcrowded after the Local Authority have taken steps to abate the overcrowding		NIL
(e)	Any other particulars with respect to overcrowding which it is considered desirable to report		NIL

HOUSING ACT, 1949

The following table shows the number of applications received under this Act for the last five years, together with number of cases in which improvement grants have been made.

Year	No of Applications Received	No of Applications Approved	No. of Applications Disapproved, deferred or not proceeded with
1953	6	3	3
1954	25	6	19
1955	36	24	12
1956	46	30	16
1957	25	14	11

MOBILE & TEMPORARY DWELLINGS

The table given below sets out the number of caravans in the area, together with the number removed and brought into the district during the last five years.

Year	No. of Caravans brought into Area	No. of Caravans removed from Area	Total Number of Licensed Caravans in Area
1953	2	2	4
1954	-	-	4
1955	1	1	4
1956	3	-	7
1957	1	1	7

ERECTION OF BUILDINGS BY LOCAL AUTHORITY & PRIVATE ENTERPRISE

✓

The number of houses erected by the Council during the year has shown a further decrease in number, only 26 being completed, and the emphasis has been switched from Local Authority building to private enterprise building, 357 houses being completed during the year by private enterprise.

The total number of houses now owned by the Council at the end of the year was 755 houses and these properties present no small problem of maintaining and management.

The submission of plans shows every indication of an ever increasing number of houses being erected by private enterprise.

Whilst the Council's programme of Local Authority building is drawing to its close the number of housing applications whilst going down to its lowest since 1946, apart from 1955, when on re-registration the number of applications was reduced to 165, there was a tendency to the list of applicants increasing during the year and there is a likelihood of the number of applications on the waiting list increasing during the coming year.
